Increase Productivity and the Efficiency of Your Practice

You’ve invested countless hours building your financial advisory practice. You’ve cultivated the right clients and assembled a quality team to service them.

**But managing a busy financial advisory practice isn’t easy.** Your days are often spent putting out fires. You’re reacting to situations instead of being proactive. And handling administrative issues is a constant challenge.

Your practice is evolving, and if you’ve never received practice management training, you’re likely making it up as you go along. Fortunately, there is a better way, one that eliminates guesswork and accelerates your success.

Practice Management Immersion will teach you proven best practices that will maximize your efficiency and position your business for long-term growth.

Six Proven Practice Management Tactics

The most successful financial advisors apply six fundamental strategies to maximize their productivity. Practice Management Immersion will teach you these tactics and help you apply them to your business for benefits you’ll see almost immediately. They include:

1. **Business Planning**  Develop a detailed plan for your future. Set goals and determine the steps to reach them.
2. **Segmentation**  Learn and understand the biggest productivity lever by organizing your practice appropriately.
3. **Business Efficiency**  Expand your client relationships by improved focus and increasing your best clients’ wallet share.
4. **Service Model**  Deliver superior service and cultivate unwavering loyalty from your clients.
5. **Team Best Practices**  Lead your team to function at its highest level.
6. **Time Management**  Eliminate distractions, delegate more and focus on activities that affect your bottom line.

Why Practice Management Immersion Is Different

You can read about different management techniques. But applying them to your own unique situations can be difficult. Practice Management Immersion bridges the gap between knowing and doing. Our proven formula for success includes:

<table>
